# Ashik Varghese K T

WERKSTUDENT – SOFTWARE DEVELOPMENT / IT MANAGEMENT

## OBJECTIVE

Motivated Werkstudent with a dual focus in software development and IT management. Eager to apply technical programming skills to build quality applications while contributing to efficient IT operations and project management.

## SKILLS

### TECH-SKILLS

- Java & C#
- Spring Boot
- REST API
- Git
- Python
- HTML & CSS
- DB Design
- MySQL
- Java Script
- Node JS
- Next JS
- React JS

### SOFT-SKILLS

Designing • Management • Problem Solving & Logical Thinking

## EXPERIENCE

### 1. Tekion Corp, Chennai Software Development Engineer in Test (Jan 2023-July 2023)

Automation Testing in ARC  
Built and enhanced automated testing frameworks for Tekion's Automotive Retail Cloud, cutting testing time and boosting QA efficiency through advanced automation.

### 2. Syncfusion Software, Chennai Software Development Engineer (Sep 2023-Sep 2025)

Frontend Product Developer in Bold Sales  
Developed and optimized React & TypeScript components in enterprise sales software, improving UI performance, API efficiency, and overall team productivity.

## INTERNSHIP

### 1. LICET Internship

#### Full stack Developer (Aug 2021-May 2022)

LICET Student Framework + LMS I worked as a Full Stack Dev, I worked in ReactJS, ExpressJS, NodeJS and MySQL for developing this Web app for our college.  
LICET Alumni Portal as a Full Stack Dev, I worked in EJS, NodeJS, ExpressJS and MySQL for developing this Web app for our college.

### 2. SPK Constructions & Technologies

#### Frontend Developer (Sep 2022-Jan 2023)

As a Frontend Dev, I worked in HTML5, CSS3 and EJS for developing the Official Website for SPK Constructions & Technologies, SG.

### 3. Crescent COE

#### Mentor-Manager (June 2021-June 2022)

Mentored a group of M.Ed. students for a period of 1 year to successfully complete their Computer Based Courses.

## PROJECTS

### 1. Student Framework Portal

Empowering college students and staff with a digital gateway to student DB, resources, collaboration, and growth.  
Tech-Used: MERN Stack (With MySQL)

### 2. Alumni Database Portal

Connecting graduates, enabling networking, and fostering a strong alumni community.  
Tech-Used: EJS, NodeJS & ExpressJS

### 3. Sign Language Detector

The deep learning based SLD, powered by neural networks, accurately interprets sign language gestures.  
Tech-Used: Python, CNN(DL) & OpenCV

### 4. D - Apps

A Secured Decentralized Mechanism using Ethereum Blockchain. D Apps are smart systems on a distributed network.  
Tech-Used: Solidity, Moralis & IPFS

### 5. Tekion Automation Framework

Internal framework for Tekion for building automation scripts and automated test cases for Tekion - ARC  
Tech-Used: Junit & Selenium

### 6. Bold Sales CRM

A dynamic and customizable CRM platform for managing sales, pipelines, and customer relationships.  
Tech-Used: Next JS & React JS

## CERTIFICATIONS

### 1. Cloud Computing (NPTEL, GUVI)

### 2. JAVA, PYTHON, C & JS (COURSERA, GUVI, LIBA)

### 3. Full Stack Development (COURSERA)

### 4. Advance Diploma In Computer Application (LIBA, Chennai)
